Ideal-ist will be present at the ICT2010 to be held in Brussels – the digitally driven – see which activities are planned.

Ideal-ist News

Ideal-ist – a Quality team for ICT PSP

With the help of a newly-created Quality Team for ICT PSP every partner search in this field will be checked against criteria. This also means support for the project proposers, enhancing the chances for a positive evaluation by finding appropriate partners. In addition this generates valuable feedback from the Quality Team that can be used to improve the whole project idea. After the quality check each partner search launched will be published with a Quality Label in more than 60 countries worldwide

About Ideal-ist

The main goal of Idealist is the enhancement of the trans-national cooperation between the ICT National Contact Points (NCP) within FP7 and an overall improvement of NCP service quality across Europe in the dynamically growing area of ICT. Ideal-ist is part funded by the European Commission; its network consists of 63 international ICT NCPs. The consortium members are from EU and Non-EU countries, including Associated States, Eastern European Partner Countries (EEPC), Mediterranean Partner Countries (MPC) and emerging countries like China, Brazil, India and South Africa. This is in line with the international cooperation strategy of the European Commission. In this light Ideal-ist supports research organisations and companies worldwide to participate in FP7. Ideal-ist is the first and unique quality labelled international ICT partner search network with 13 years experience.
