

Ideal-ist extends its support network by collaborating with other networks and associations worldwide!

If you are interested in collaborating with our network, please find below our services, our focus area and how to contact us to discuss cooperation.

Ideal-ist is the Cluster 4 National Contact Point Network for Digital destinations in Horizon Europe.

The network includes more than 70 partners from Member States, Associated Countries, Eastern European Partner Countries (EEPC), Mediterranean Partner Countries (MPC), and other countries throughout the world.

The focus is on activities relevant for the Digital research and innovation community.

Ideal-ist has a longstanding experience in addressing the needs of proposers and tackling the challenges the community and European Commission face.

What Ideal-ist can do for you:

- **extend and open your network activity worldwide by providing our communication channels for promotion**
- **facilitate partner search for topics in Cluster 4 Digital**
- **organise brokerage events, training seminars, knowledge and experience-sharing workshops**
- **provide high quality information on Horizon Europe funding opportunities**

Specific cooperation activities should be in line with Ideal-ist objectives and will be discussed individually. **We kindly ask you to present yourself and let us know how you wish to collaborate with our network:**

Name of network or association you represent:
Name of contact person:
Email:
Phone:
