Our SSH Research Areas & expertise

Topic (s) addressed

Topic number & Title	Role	Expertise offered
HORIZON-CL4-2027-01-MAT-PROD-42 – <i>Unlocking the potential of academic intellectual assets.</i>	WP leader. Strategic Partner for Exploitation and Valorization.	Market analysis, business model development, and exploitation strategies . We may bridge the gap between academia and industry by providing guidelines for the transition of intellectual assets to market-ready solutions
HORIZON-CL4-2027-02-DIGITAL-EMERGING-52 – <i>Human/AI collaboration for the workforce of the future.</i>	WP Leader. SSH Strategic Partner	Analysis of societal readiness , consumer acceptance, and behavioral change. We may identify user needs and perceptions to design effective strategies that ensure AI integration in the workforce is human-centric.

Topic (s) addressed

Topic number & Title	Role	Expertise offered and idea
HORIZON-CL4-2027-04-HUMAN-02 – <i>Virtual Worlds and Web 4.0 ecosystem.</i>	WP leader. Ethics, Communication, Engagement.	Idea: To harmonize emerging technologies through SSbD Kveloce implements Safe and Sustainable by Design (SSbD) frameworks that integrate social and economic dimensions from early development stages (low TRL). By using mixed quantitative and qualitative methods, such as Social Life Cycle Assessment (SLCA), we will ensure that AI and Virtual World technologies are not only technically sound but also socially acceptable and sustainable. Other roles: Robust management of ethics compliance, data management plans (DMP), and the promotion of Responsible Research and Innovation (RRI) principles. We specialize in Multi-Actor Approach (MAA) and quadruple helix engagement to build trust in digital ecosystems.
